OUR MENUS

SEASONAL, SUSTAINABLE,
SENSATIONAL.

Featuring dishes
from our
50 Mile Menu

SUSTAINABILITY CHAMPIONS

Like all good teams,
we lead by example.

At Croke Park, we take our sustainability as seriously as our sports. Not only do we have a world-class stadium, we're also proud to be a world leader in sustainable events.

Our sustainability journey started back in 2007 and it's been one of our core values ever since. By making it a key part of our culture stadium-wide, it's become a way of life, putting us ahead of the game and allowing us to smash our sustainability goals at every turn.

Like all of the incredible teams who've played on our grounds, we lead by example, inspiring others through our commitment and our actions.

In 2014, six years ahead of target, we became a zero waste stadium, with 100% of our waste being recycled, reused or recovered. Croke Park was also the first stadium in Ireland and Britain to secure both ISO 14001 and ISO 20121 standards. Taking our achievements to the world stage, we became the very first stadium in the world to obtain certification to the newest International Environmental Standard, ISO 14001:2015.

Croke Park Meetings & Events is a state-of-the-art sustainable campus, committed to managing our impact on the natural world and influencing others to do the same.

GROWING AMBITIONS

The Croke Park Farm

You might be surprised to know that we even have our own turf farm in North County Dublin. Growing the turf locally benefits both pitch quality and control, while reducing the carbon emissions associated with importing.

However, the turf is just the beginning of our farming story. We're now food producers in our own right! Having farmland presents new sustainability opportunities for our menus, which we've embraced by starting to grow our own vegetables, fruit and herbs. And through a collaboration with Fingal Beekeepers' Association, we have beehives on the farm producing the most incredible tasting local honey. It's all on a small scale for now, but watch this space.

SUSTAINABILITY FROM THE GROUND UP

Our Food Story

The next chapter of our story is all about transforming our food menus to champion sustainability in every plate we serve. By considering where all of our food comes from, we can support both the earth and local suppliers through our choices.

Our main focus is on sourcing the freshest of ingredients. We're proud to say that 85% of all ingredients in our new menus are sourced from the island of Ireland. Better again, 70% are actually sourced from within just 50 miles of the stadium. This is without a doubt our proudest food achievement to date and it has allowed us to create our exciting and ground-breaking 50 Mile Menu.

85%

of all ingredients in our new menus are sourced from the island of Ireland.

70%

of all ingredients are sourced within just 50 miles of the stadium.

OUR 50 MILE MENU

**Seasonally inspired,
locally acquired.**

**It's now possible to build your entire event menu from our
50 Mile Menu offering!**

All 50 Mile Menu dishes come with a guarantee that every single ingredient used has been sourced within 50 miles of the stadium, including from Croke Park's own farm in North County Dublin.

In terms of flavour, it doesn't get fresher than this. And in terms of sustainability, it doesn't get better than this either.

Dishes from our 50 Mile Menu will be clearly labelled with our icon.

OUR 50 MILE MAP

**The freshest ingredients,
locally sourced.**

- 1. Boyne Valley Meats** – Garristown, Co. Meath

- 9. Iona Fruit Farm** – Oldtown, Co. Dublin
- 10. John Thorne of Lusk** – North County Dublin

A FLAVOUR OF OUR ETHOS

Showcasing the
best of the season

Our ethos is far from just words you can read, it's flavours you can taste. Our Executive Chef, Ruairi Boyce, and his team always prioritise seasonal produce and regional sourcing of ingredients. In fact, our menus are now all seasonal, which means we put local produce at the heart of each dish, creating exceptional meals from the nourishing produce growing around us.

Depending on the time of your event, you'll choose from our Spring/Summer menus or our Autumn/Winter menus. No matter which menu you're choosing from, every single dish has a 'Carbon Footprint' score, plus details of all allergens, so that your choice is always an informed one.

CARBON FOOTPRINT

Make informed decisions and make a difference.

We all know we need to reduce our carbon footprint, but when you're ordering off a menu, it can be hard to understand the impact of your choices. Together with our on-site catering partners, Aramark, we're changing the game by giving you the ability to calculate the carbon impact of your menu choices.

Using Aramark's 'Foodprint' labelling system, all of our menu items now come with a carbon impact score. This score gives you the knowledge you need to make environmentally conscious decisions, empowering you to plan your event with a greater understanding of its environmental and economic impact.

Foodprint uses cutting-edge technology and the most reliable data available to support our

combined efforts to get to Net Zero. We believe that this transparency will increase awareness and drive real change.

How it works

Foodprint generates a score taking into consideration the environmental impact of each ingredient.

THE SCORE MEASURES THE IMPACT OF AGRICULTURE, PROCESSING, PACKAGING AND TRANSPORT.

Beside each of our dishes, you'll see a Foodprint letter. Each letter gives a rating on a scale between A and E, with A being a 'Very Low Carbon Foodprint' and E being a 'Very High Carbon Foodprint'. Our goal is to keep our Foodprint scores as low as possible.

The Foodprint labelling system

ALLERGEN & DIETARY INFORMATION

At Croke Park, we're committed to making your dining experience both exceptional and exceptionally safe. That's why we've developed this key to help you quickly identify allergens – simply check your dish for the numbers or letters that represent your allergen(s). Please let us know if you have any questions or additional requirements.

GAME CHANGERS

Ruairi Boyce & His Team

Our Executive Chef, Ruairi, is an inspiring foodie, operations and events guru, bringing brilliance and beautiful food to Croke Park every day of the week. His passion is matched only by the passion of his extraordinarily talented team at Aramark.

Together, they've brought our 50 Mile Menu concept to life, pushing the boundaries and possibilities of sustainable food. They're constantly exploring new ideas and discovering new artisan suppliers, putting our stadium kitchen at the heart of our local farming community.

“There’s one golden thread linking everything: the provenance of our product. It’s all sourced as locally as possible from suppliers with whom we’re on first name terms. Farm to fork may be a bit of a gastronomic cliché but it’s the aspiration and inspiration for all we do.”

– Ruairi Boyce, Executive Chef

TEAMWORK

**Local suppliers,
incredible freshness**

The spirit of teamwork is not just central to the games played at Croke Park, it's central to our partnerships at every turn. Our suppliers are all handpicked for their quality, standards, traceability, authenticity and unmistakable flavour of their produce. By continuously bringing exciting local and artisan producers into our supply chain, we champion sustainability, local connections and local success stories on a daily basis.

HANDPICKED HEROES

Our Suppliers' Stories

BOYNE VALLEY MEATS

Garristown, Co. Meath

Thanks to their loyal group of farmers who supply stock of the highest possible quality, Boyne Valley Meats is proud to guarantee complete traceability of their prime Irish beef.

Located in the rich farmland region of East Meath, Boyne Valley Meats farms one of the finest farming areas of Ireland, steeped in the tradition of rearing top quality cattle and sheep. The professional team at Boyne Valley have a combined experience of 45 years in meat processing, ensuring premium quality in every bite. At Croke Park, we know how true this is, as our kitchen has enjoyed Boyne Valley Meats' excellence of craft for several years now.

HUGH MAGUIRE BUTCHERS

Highstreet, Ashbourne, Co. Meath

Hugh Maguire has been Ireland's premier butcher for over three decades now. His passion and dedication to his craft are unparalleled.

A master butcher, Hugh stands apart from the competition thanks to his talent for food craftsmanship and product innovation.

In 2016, Hugh purchased a smokehouse in Navan, where he began smoking some of his own products using beechwood. Drawing on his award-winning traditional black pudding, his smoked black pudding and 'The Smokin' Butcher' were born. Hugh intends to carry on creating one-of-a-kind artisan pork products and is joined by his son, Hugh Junior, who will carry the torch for many years to come.

KISH FISH

Howth's West Pier, Dublin

Kish Fish supplies an extensive selection of spectacular seafood to Croke Park, from their rich assortment of products including Balscadden Lobster, Smoked Hake, Fresh Seaweed and Smoked Salmon, to name but a few. Located in Howth on the West Pier, Kish Fish is a stone's throw from Croke Park, and their commitment to responsibly and sustainably sourcing their seafood makes them an exemplary supplier.

At Baily & Kish, part of Kish Fish, all salmon is hand selected, and carefully cured and smoked in their very own smokehouse in the heart of Howth. The wood used in the pier side smokehouse is PEFC certified, guaranteeing sustainably produced seafood by international standards.

BALLYMOONEY FOODS
College Road, Clane, Co. Kildare

Established in Clane, County Kildare, in 1996, Ballymooney Foods remains fully Irish owned and family run.

From the outset, founder Pat Doyle built a firm reputation for unrivalled standards of excellence, consistency and dependability with suppliers and customers alike. Ballymooney Foods has supplied quality beef, lamb and venison to Croke Park for several years now. Their animals are hand selected, grass fed and naturally reared, producing meats that are carefully chosen to guarantee quality and consistency and exceed expectations. The core of their success lies in their ability to deliver according to their customers' needs as each product is hand selected by a knowledgeable master butcher with over 30 years' experience.

KERRIGAN'S MUSHROOMS
Cortown, Kells, Co. Meath

Nestled just outside the historical town of Kells, Kerrigan's Mushrooms was established in 1981 and remains a family run farm to this day.

Kerrigan's pack all of their own mushrooms and deliver best in class products through exceptional quality standards. All mushrooms are picked, packed and delivered to customers on the same day to guarantee freshness. This is their first year supplying Croke Park and we're thrilled to serve Kerrigan's gold standard produce in a variety of tasteful dishes. Kerrigan's is the first mushroom grower to obtain Origin Green Status for Sustainability Credentials, aligning with Croke Park's green agenda and commitment to reducing our carbon footprint.

GARDEN OF EDEN HERBS
Rush, Co. Dublin

Garden of Eden Herbs has been proudly supplying Croke Park with a variety of fresh herbs, including fresh baby spinach, mixed leaf and cavolo nero, since 2017.

Established in 1980, the Jones family produce over 30 varieties of fresh quality herbs and baby leaf salads on the same farmlands in Rush that their forefathers did over 100 years prior. The freshness and quality of their produce can be tasted in multiple dishes here in Croke Park, showcasing that Garden of Eden remains at the forefront of horticulture techniques and practices.

McCARTHY'S STRAWBERRY FARM
Sallins, Co. Kildare

McCarthy's Strawberry Farm is a third-generation family business located just outside Sallins in Kildare.

Trading for more than 40 years, this family business has had pride of place on Croke Park menus since 2017, featuring in an array of delicious summer salads and sweet dishes. McCarthy's of Sallins pride themselves on their meticulous attention to detail in their farming. From planting to harvesting and packing to delivery, everything is supervised by family members because quality is always their main focus.

As soon as the strawberries have been picked, they are immediately chilled to ensure that their 'just picked' freshness is maintained.

TAYLOR'S OF LUSK
Chapel Farm, Lusk, Co. Dublin

Taylor's of Lusk is a family-run Irish farm based in Co. Dublin, producing homegrown Irish chilli, garlic, swede, pink onion and shallot.

The Taylor family has been farming at Chapel Farm, Lusk, since the early 1800s. Situated within 50 miles of Croke Park, their delicious Irish vegetables are prominently featured in multiple new 50-mile dishes within this menu pack. Sustainability has become a key focus for the family, one that has seen them expand and embrace the new age of sustainable food. They excel in biodiversity through the enhancement of the bee population. Bees are released on a bi-weekly basis to pollinate their chilli plants, enhancing product quality and traceability the natural way.

IONA FRUIT FARM
Oldtown, Co. Dublin

Iona Fruit Farm is a family-owned farm with a reputation for expertly producing baby vegetables, cooking apples, berries, courgette flowers and fresh Irish rhubarb.

They are the main producers of baby vegetables in Ireland and most of their production takes place in the greenhouses located at their Lusk-based farm. Iona's freshly handpicked produce such as baby carrots, turnip, and courgette flowers are incorporated into the new Croke Park menu pack, complementing delectable dishes made using ingredients sourced within 50 miles of the stadium.

JOHN THORNE OF LUSK
North County Dublin

Located in the agricultural heartland of North County Dublin, John Thorne & Sons is a mixed farming enterprise that specialises in parsnip and potato production.

Having started farming 50 years ago, John Thorne & Sons has evolved into one of our island's premier potato and parsnip growers. They've modernised their farming practices and reduced their carbon footprint by eliminating all chemical fertiliser and replacing it with a natural substitute.

John Thorne's potatoes have been a staple here in Croke Park for many years and their ambition to reduce their carbon footprint is beautifully aligned with our own sustainability agenda.
